Mix it up a little

There's no rule saying that all your furnishings have to match. If you're feeling adventurous, try one sofa covered in a striking patterned fabric and a second in a plain fabric. Pair with matching or complementing curtains for the perfect finish.

It's your home, so have fun and choose a look that's right for you.

Quality you can feel

Your home deserves the very best, and that's what we offer across our vast fabric range. While patterns and styles change, you'll always feel the quality in the unmistakable texture and touch of a Plumbs fabric.

Sumptuous velvets

It's no surprise that luxury velvet fabrics are some of our most popular, as they enhance any style of furniture. We offer a wide range, including Chelsea Velvet, Eco Velvet and Cardinal – all wonderfully soft and luxurious to the touch.

Choose from a stunning range of colourways, from timeless neutrals to rich, vibrant tones.

Say it with flowers

Our designs encompass everything from grand, large-scale florals to more intricate and delicate patterns. When printed on upholstery-weight woven fabrics, they create a truly sensational look in your home.

For those who prefer a subtler touch of floral elegance, consider covering or reupholstering an armchair with one of our floral fabrics to create a stunning statement piece, and pair with a plain coloured sofa.

Or embrace boldness by selecting curtains in a floral design, creating a captivating focal point in your room.

Go Prestige for a cut above

Our Prestige Range showcases the finest fabrics of distinction from leading design houses. It is designed for those seeking that extra-special look and feel for their new sofa covers, curtains, or reupholstered furniture.

Embodying the highest quality imaginable, the range is regularly updated to reflect the latest colours, patterns, and trends.
