Choose Aquaclean® fabrics for incredible stain resistance

Aquaclean® fabrics feature a revolutionary treatment that creates an invisible layer over every fibre, preventing dirt from penetrating the fabric.

Ideal for homes with pets and active families, Aquaclean® allows you to remove most household stains – such as wine, ink, sauce, fat, mud, chocolate, and cream – quickly and easily using only water. Plus, for additional peace of mind, Aquaclean® fabrics are enhanced with Safe Front® technology, offering protection against enveloped viruses and bacteria.

How we reupholster your furniture

1. We carefully strip your furniture back to its frame, tightening any loose frame joints and replacing springs where needed.

2. New seat cushions are created so you'll always be sitting comfortably. Our craftspeople draw on decades of experience to produce a finished product that perfectly balances style, comfort and quality.

3. Using the Plumbs fabric of your choice, your furniture is meticulously reupholstered.

4. We put craft into every detail, ensuring that all original features are maintained.

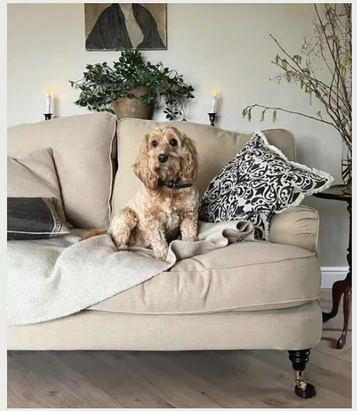
Revive your comfort with new cushion infills

Cushions lose their shape over time, leaving seats saggy, less comfy, and not quite as lovely as they used to be.

Fortunately, with a little help from our team, there's no need to say goodbye to your favourite furniture when cushions begin to lose their comfort.

At Plumbs, we offer a wide selection of made-to-measure cushion infill upgrades that will bring back the comfort, support and style you love without the cost of buying new.



New infills help prevent sagging and structural wear, extending the lifespan of your favourite furniture.

Elegant door curtains

Transform your doorways with our stylish door curtains. Ideal for keeping draughts out and the warmth in, they add a touch of sophistication while serving a practical purpose.

Save energy with our innovative curtain linings

Discover the transformative power of our linings, the unsung heroes of curtain efficiency. At the forefront is our revolutionary Energy Reflective Lining, a first-of-its-kind ‘hybrid’ solution. This patented lining combines energy reflection with fantastic blackout performance. Feel the difference in winter as it reflects warmth back into your room, forming a snug barrier against the cold outside. In contrast, during the summer, it reflects heat away to maintain a cool and comfortable indoor space. When compared with standard cotton-lined curtains, our Energy Reflective lined curtains reduce heat transmission by up to 5 times, marking a significant leap in thermal efficiency.
